River LINE Timetable Book

Current (NJ TRANSIT, Sept 2026) and proposed weekday timetables

ISE Senior Design Team 22

September 28, 2026

Times are departures, rounded to the minute. "–" means the trip does not serve that station.

- **NJT current** is transcribed from NJ TRANSIT's GTFS feed (release of Sept. 15, 2026; Mobility Database mirror mdb-509).
- **Proposed T8–T3** come from the pattern optimizer described in the project report. Each keeps NJ TRANSIT's 150-minute round trip and spaces trains as evenly as the single track allows. Every scheduled meet falls on double track in the calibrated track model, all day.
- **Proposals B8, B7, E5, E6, G8, S8, R8, W7** (revision 3) change one design choice each: meet buffers and layover length (B8, B7, G8, R8), the midday service (E5, E6), holds before single track (S8), and summer running times (W7). All are conflict-free. B8 is the recommended weekday timetable; see Section 7 of the project report for their simulated punctuality.
- **Uniform U8–U4** use a single headway in each period. Each period is conflict-free, but the changeovers between peak and off-peak produce the conflicts listed below and need retiming before use.
- All proposed timetables are planning drafts: running times are NJ TRANSIT's scheduled times, and siding locations are calibrated from NJ TRANSIT's own meets rather than taken from an official track chart.
